

I am eager, also, to participate in the assessment of "Virtual Archaeology" (I may write a master's thesis on my experiences with this teaching software) and to work with your research team to enhance the learning effectiveness and fun of the game. I am confident that it will be a rewarding experience for everyone involved, especially my students.

In conclusion, I am looking forward to the partnership of N.D.S.U. and Jamestown College on this exciting and important venture.

Sincerely,

Timothy L. Bratton, Ph.D.
Professor and Chair,
Dep't. of History and
Political Science
